

The Rower,  
Co. Kilkenny.  
12-01-16

Dear Sir/Madam,

In regards to the proposed boundary change of South Kilkenny. I am very disappointed to hear of this being considered and I object to it as it is a very unjust and unfair proposal and will no doubt cause a lot of hurt and upset to many proud Kilkenny people.

This proposal, if approved will obviously not only reduce the population and the area of Co Kilkenny but it will also change and affect the identity of people living in Kilkenny.

The boundary of county Kilkenny has remained the same after all these years, so why now should it change with just the stroke of a pen without even consulting the people that have to live with it?

There is no reason for both counties to change their boundaries so please leave them as they are.

This proposal if successful, will mainly affect the people living in south Kilkenny and especially the people of Slieverue, which is just wrong.

I would ask you to please abolish this proposed boundary change.

Yours sincerely,

Breda Threasa Walsh
