Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area? It won't have any impact

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area? It would be changing our address hence taking from our identity. We've huge pride in where we are from and it's disgusting that it's even up for discussion to take from us. There will be no cohesion if not tension.

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future? It won't have any impact

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government? No impact

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community? No impact

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation? We have our own representatives

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area? It's perfect the way it is, we've managed so far...

Is there anything else you wish to add ? Leave us alone
