Subject: Boundary Review

Hi,

The natural hinterland of the city of Waterford covers both banks of the River Suir and it makes no sense whatsoever to have a different local authority who have no interest or track record in supporting the aims of the other to be in control of the north bank of the river. Give Waterford the chance to have a coherent cohesive management of the whole city area so as to allow the city reach its true potential and to serve all the citizens in a proper fashion. It is haphazard what happens at present and will continue to be of no benefit to a modern city to maintain the status quo. Both sides of the river and its surrounding areas and even the satalite town of Tramore should be part of the metropolitan area governed by a Waterford City based local authority. Anything less is not the way a city should be run..The alternative is to continue with small time blinkered attitudes and ideas which will just stifle the life n out of all the citizens and deny us all the opportunity to make this city the place to live and do business it should and can be. Move past county boundaries and make us a modern vibrant city covering the area that falls naturally into its environs. Mass makes a city..make this happen. .ye have the pow to do something good positive and right don't pass up the chance. ..It may never come again. ..don't pass the buck...be brave enough to make it happen. .

Regards

Billy Hearne.
