Area in which you reside. Specific addresses are not needed. Graiguenamanagh

Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area? the whole of kilkenny would suffer if this boundary alteration happens

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area? Greatly

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future? I think it would hinder us greatly as our county would be a lot smaller then

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government? it would hinder us greatly as we would not be getting as much government support money and otherwise

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community? waterford has made a mess of their own city in the way that it was planned and kilkenny has been very successful in the development of belview port. therefore it should be left to kilkenny county council to look after kilkenny

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation? I think we would have less representatives in the kilkenny area which would not be good for the people of kilkenny

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area? There is more than one way of solving this problem for waterford county council. so I think they should sit down and discuss the situation with kilkenny county council.

Is there anything else you wish to add ? This Cannot Happen.
