Area in which you reside. Specific addresses are not needed. Mullinavat

Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area? The proposed boundary would lessen the investment in the area by the council and so influencing jobs

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area? The change to the boundary would hinder proud south kilkenny peoples idendity. Having lived in souh kk all their lives. Suddenly the new boundary would mean that they are no longer from kk

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future? The change of the boundary would make little difference in delivery services

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government? The proposed boundary would hinder value for money in local government as local tds would find it hard to be elected competing against the tds in the more densely populated areas of waterford

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community?

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation? The proposed boundary would lessen south kk representation in government due to the larger population representation in waterford

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area? Strengths. Is the local authority takes great pride in being from south kk and promoting, and upkeeping south kk representation. The local authority also works closely with waterford city council. To promote the advancement of the region.

Is there anything else you wish to add ? The proposed boundary is simply a economoc motivated proposal. With the boundary including large parts of south kk inlcuding belview port. This proposed boundary isnt taking into account the feelings of the locals in the area and how they feel about the boundary
