Area in which you reside. Specific addresses are not needed. South Kilkenny

Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area?

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area?

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future?

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government?

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community?

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation?

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area?

Is there anything else you wish to add ? I think that this proposal would be detrimental to the identity of the people affected in the area. Pride of place in county in Ireland is heightened in the mindset of people. A change of county and province is more than their identity could bear. Service provision and employment creation and collaboration between the local authorities can continue regardless of any change in the boundary. For this reason I have chosen not to answer any of your specific questions.
