Area in which you reside. Specific addresses are not needed. Ballyhale Kilkenny

Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area? Kilkenny would lose out on revenue from future business starting up , eg rates etc

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area? It would cause resentment between communities and would lessen prospects of proper cooperation between neighbours.

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future? consultation and cooperation would ensure better delivery of services. Annexing part of another County which happens to be in a different province cannot improve anything.

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government? Where there is not agreement it will only lead to hindering efficiency and value for money

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community? Again cooperation and consultation is the best way to achieve best results

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation? It would not improve the delivery of effective accountable democratic representation .

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area? Good neighbours is a very important strength

Is there anything else you wish to add ? The situation can be best served by talking to one another, and listening to what each side has to say
