Area in which you reside. Specific addresses are not needed. Slieverue

Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area? It will not help employment.

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area? It will split the community of Slieverue

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future? Waterford have no intrist in developing south Kilkenny. They are only after revenue. There has been no development in Ferrybank by Waterford other than building local athourity housing for waterford residents.

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government? It will not. Any money raised will go to waterford city coffers.

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community? More local authority housing. Waterford exporting it's problems. That's the plan for South Kilkenny. No help whatsoever.

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation? South Kilkenny already has this. Changing a boundary will not affect this in any way.

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area? It's fine as it is. Maybe kilkenny co. Co. Should take over waterford and show them how to run things.

Is there anything else you wish to add ?
