Daytime telephone number :

Area in which you reside. Specific addresses are not needed. Knocktopher, Co. Kilkenny.

Question 1 How might alteration of the boundary help or hinder the retention or creation of employment and the general economic performance of the area? Void question. boundaries have no real effect on employment. All part of one country!! Both KK and WD have a lot to offer and COLLABORATION, as is currently happening, between the 2 counties will ensure the area thrives.

Question 2 How might the alteration of the boundary help or hinder the identity or cohesion of local communities in the area? Extremely important. Kilkenny is Kilkenny....NOT Waterford. Identity is an extremely important factor.

Question 3 How might alteration of the boundary help or hinder delivery of services by local government to ensure that the needs of the local community are met now and in the future? Collaboration between Waterford and KK County Councils will ensure community needs are met. Waterford doesn't need a land grab to do this.

Question 4 How might alteration of the administrative boundary help or hinder the need to maximise efficiency and value for money in local government? All levels of local government are inefficient, boundaries wont change this. Change is needed from top down at national level.

Question 5 How might alteration of the boundary help or hinder the Planning and Development needs, as administered by the local authority, of the community? Works fine as is!!

Question 6 How might alteration of the boundary help or hinder the delivery of effective and accountable democratic representation? Representatives already represent all areas along the WD/KK boundary.

Question 7 What strengths or weaknesses do you see in current local authority administrative boundary arrangements in the area? COLLABORATION is key!!! No land grab needed!

Is there anything else you wish to add ? Questions seem very biased towards favouring a Waterford land grab. DO NOT touch KK lands. If ye do when will it stop!!!
