**Subject:** Kilkenny Waterford boundary review

This is my submission on the changing of the Waterford / Kilkenny boundary. The boundary of Kilkenny should not be changed. People's identity is very important to them it's who they are, it's where they come from. It is important to them, it gives them a sense of pride, it's as important as being Irish itself.

Not only does it change the county you live, it will also be a change provincial status too.

There would be a loss of income from property tax, a loss of development contributions and other fees. This is not something Kilkenny County Council can afford. It will affect their ability to fund important services for Kilkenny.

Hands off Kilkenny you just can't be changing the map of Ireland.

Therefore I object to the change in the boundary between Kilkenny and Waterford.

Pauline Cass,

[REDACTED]  
Kilkenny.
